Simulator Checklist for MD 136
Baby Arti Simulator

Note: Make sure all the following items listed below are in the carrying case/container before re-shelving the simulator

- 1 Baby Arm mannequin attached to wooden base
- 1 Foam Pad (underneath arm)
- 1 bottle of Blood Concentrate
- 1 empty Blood Reservoir bottle
- 2 yellow replacement artery tubes inside small yellow envelope (an artery tube should already be inserted into baby’s arm)

The Following Items Should Be Inside White Envelope

- 1 Seven page Directions for Use manual
- 1 “Medical Definitions for MD 136” list
- 1 “Avoid Damage to Simulator” insert
